## Long-lasting brightness and color. Rock-solid reliability.

Take on any large venue or staging event with the Christie® Crimson Series of high-performance, 3DLP® laser phosphor projectors. Built tough to withstand the rigors of demanding, high-usage applications, Crimson Series projectors are also easy to ship, handle and install thanks to a compact form factor, quiet operation and 360-degree orientation. Featuring an IP5X sealed, solid-state laser light source, Crimson projectors provide years of reliable, low-cost and virtually maintenance-free operation.

With Christie BoldColor Technology, these high-brightness projectors produce big, bright and intensely colorful images for amazing visual experiences. Add to this the ultra-fast processing of Christie TruLife™ electronics, built-in Christie Twist™ and compatibility with Christie processing products, and you can build out a powerful solution that works as needed, when needed. Benefit from the time and costs savings that come with reliable and long-lasting performance.

**CHRISTIE®**

Physical	size	• (LxWxH): 37.7 x 25.0 x 11.9" (957 x 635 x 302mm)	
	weight	• 165lbs (74.8kg)	

## Key features:

- › **High brightness** - Up to 25,000 ISO lumens for big, bright images
- › **BoldColor Technology** - Enhanced color performance and saturation over standard laser phosphor projection
- › **Long-life laser light source** - Up to 20,000 hours of virtually maintenance-free operation
- › **High-image quality** - 3DLP® imaging, WUXGA/HD resolution, HDR10 compatibility and BoldColor Technology for amazing, true-to-life visuals
- › **Advanced electronics** - Christie® TruLife™ electronics for ultra-fast processing up to 60Hz
- › **Blend and warp** - Christie Twist™ built-in for quick and easy setup
- › **Seamless integration** - Compatible with Christie Mystique™ to simplify the design, installation and maintenance of complex projection setups
- › **Fully omnidirectional** - Unrestricted design and installation flexibility
- › **ILS lens compatibility** - Designed to work with existing Christie M and J Series lenses for added cost savings and versatility
